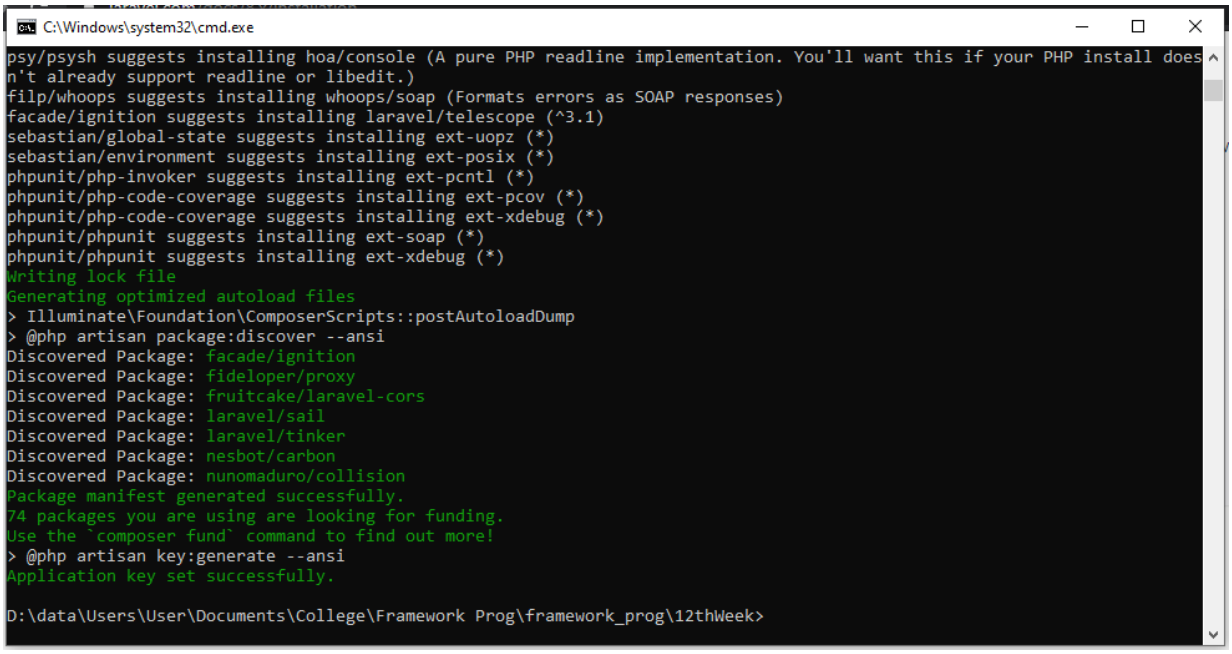
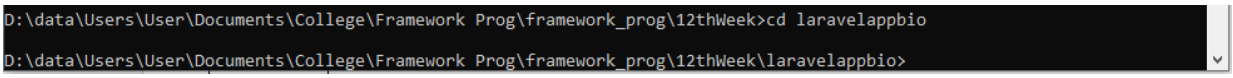
Program Studi D-IV Teknik Informatika
Jurusan Teknologi Informasi
Politeknik Negeri Malang
Mei 2021

Praktikum – Bagian 1: Instalasi Laravel di Windows

Langkah	Keterangan
1	Buka Command Prompt menggunakan shortcut Win + R, kemudian inputkan cmd pada oepn field kemudian klik ok  Ubahlah penyimpanan project pada direktori yang diinginkan menggunakan perintah cd /d directoryLoc  Untuk memulai instalasi new project laravel ketikkan syntax berikut pada direktori yang dipilih **composer create-project laravel/laravel yourprojectname** 

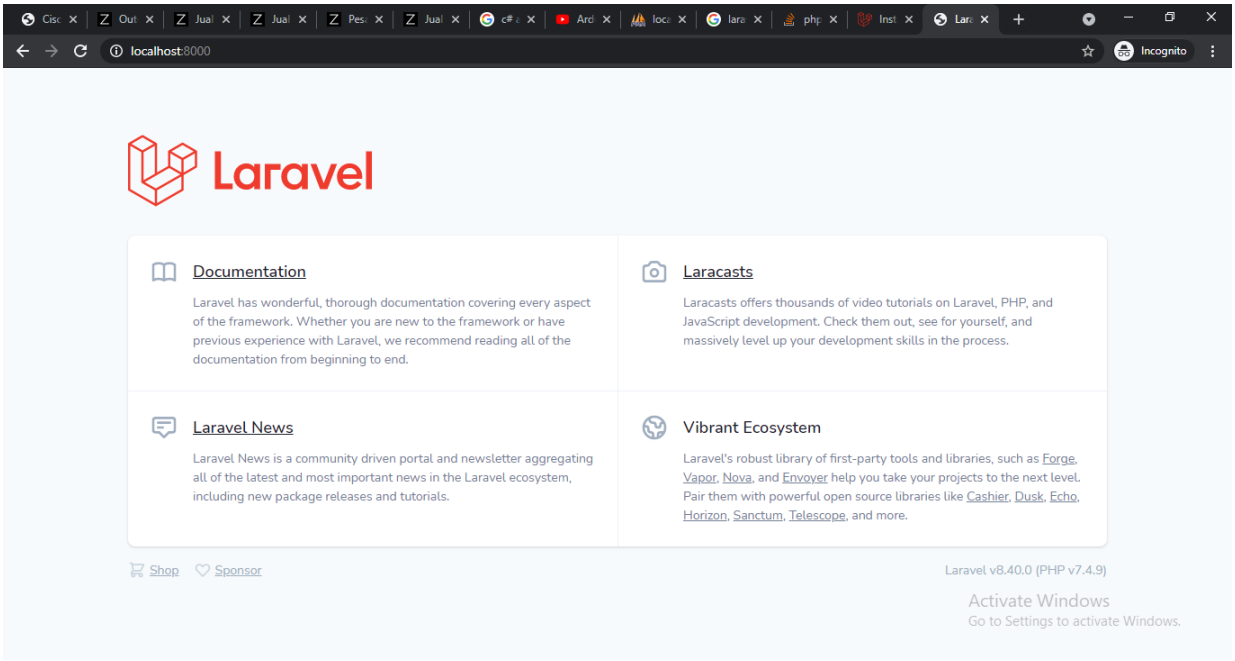


Masuk ke direktori project yang baru saja dibuat menggunakan syntax cd yourprojectname



Jalankan project menggunakan perintah **php artisan serve**

Kemudian ketikkan localhost:8000 pada browser, maka akan muncul homepage Laravel



Buat file baru pada direktori resources/views/bio.blade.php kemudian tambahkan source code berikut

resources > views > bio.blade.php > html > body > div > div.row.bg-success > div.col-3

```
<!doctype html>
<html lang="en">

<head>
    <!-- Required meta tags -->
    <meta charset="utf-8">
    <meta name="viewport" content="width=device-width, initial-scale=1, shrink-to-fit=no">

    <!-- Bootstrap CSS -->
    <link rel="stylesheet" href="https://stackpath.bootstrapcdn.com/bootstrap/4.3.1/css/bootstrap.min.css" integ

</head>

<body>
    <div className="container-fluid">
        <div class="row">
            <div class="col bg-dark" style="text-align: center; padding-bottom: 15  px;">
                <nav className="navbar navbar-expand-lg fixed-top">
                    <ul class="navbar-nav mx-auto">
                        <h1 class="display-2 text-success">Biodata Laravel</h1>
                    </ul>
                </nav>
            </div>
        </div>
        <div class="row bg-success" style="height: 525px;">
            <div class="col-3">
            </div>
            <div class="col-3" style="margin-top: 90px; margin-left: 60px;">
                <img src="image/me1.png" alt="myPhoto" style="width:100%;">
            </div>
            <div class="col-3" style="margin-top: 90px;">
```

Activate Windows

resources > views > bio.blade.php > html > body > div > div.row.bg-success > div.col-3

```
            <div class="col-3" style="margin-top: 90px;">
                <h4 class="display-6 text-dark font-weight-normal">
                    <small>Hunayn Risatayn</small>
                </h4>
                <h4 class="display-6 text-dark font-weight-normal">
                    <small>081222200039</small>
                </h4>
                <h4 class="display-6 text-dark font-weight-normal">
                    <small>Informatics Engineering</small>
                </h4>
                <h4 class="display-6 text-dark font-weight-normal">
                    <small>Binging movies</small>
                </h4>
                <h4 class="display-6 text-dark font-weight-normal" style="padding-top: 7px;">
                    <a href="https://github.com/hunaynr" class="link-warning" style="color:yellow;">
                        <kbd>
                            <small>GitHub</small>
                        </kbd>
                    </a>
                </h4>
                <h4 class="display-6 text-dark font-weight-normal" style="padding-top: 7px;">
                    <a href="mailto:hunaynr@gmail.com" class="link-warning" style="color:yellow;">
                        <kbd>
                            <small>Gmail</small>
                        </kbd>
                    </a>
                </h4>
                <h4 class="display-6 text-dark font-weight-normal" style="padding-top: 7px;">
                    <a href="https://www.youtube.com/channel/UCP53BJw16j_nt4Y0sETg1rA" class="link-warning" styl
                        <kbd>
                            <small>YouTube</small>
                        </kbd>
```

Activate Windows
Go to Settings to activate Windows.

resources > views > bio.blade.php > html > body > div > div.row.bg-success > div.col-3

```
                <h4 class="display-6 text-dark font-weight-normal" style="padding-top: 7px;">
                    <a href="mailto:hunaynr@gmail.com" class="link-warning" style="color:yellow;">
                        <kbd>
                            <small>Gmail</small>
                        </kbd>
                    </a>
                </h4>
                <h4 class="display-6 text-dark font-weight-normal" style="padding-top: 7px;">
                    <a href="https://www.youtube.com/channel/UCP53BJw16j_nt4Y0sETg1rA" class="link-warning" styl
                        <kbd>
                            <small>YouTube</small>
                        </kbd>
                    </a>
                </h4>
            </div>
        </div>
    </div>
</body>

</html>
```

Rubah return.vew pada Route:: get('/', func() yang ada pada routes/web.php

routes > web.php > #Function#84f3b0f

```php
<?php

use Illuminate\Support\Facades\Route;

/*
|--------------------------------------------------------------------------
| Web Routes
|--------------------------------------------------------------------------
|
| Here is where you can register web routes for your application. These
| routes are loaded by the RouteServiceProvider within a group which
| contains the "web" middleware group. Now create something great!
|
*/

Route::get('/', function () {
    return view('bio');
});

```

Ketikkan **php artisan serve** pada terminal kemudian buka localhost:8000 pada browser
